Dear Resident,

As a resident of Crawley I have often heard people speak negatively of the town and of specific neighbourhoods. As a father of two children, a Christian and someone that is involved in charities aimed at helping people in difficulty, I am acutely aware of the impact this negative image has on us, as parents and our children and residents of Broadfield. This image, is exactly that, an image. Images and perceptions can be changed.

As the elected representative of Broadfield South, by engaging with you, addressing your issues and problems I hope to inspire an even greater community spirit and motivate all Broadfield South residents to change this perception and to be proud of Broadfield South. Having owned my own business, I'm passionate about small businesses and enjoy the fact the Barton has a large variety of small businesses. In speaking to many of the residents, I have to my great pleasure found many self employed and small business owners and I welcome any opportunity to speak to and help businessmen and women to grow and succeed in their business ventures, whether they be in the Barton, or run from their homes.

Safety for our families is a non negotiable issue. This is something that we can all get involved in. By making a stand against crime and all forms of antisocial behaviour, each resident can have a positive impact on everyone's lives.

Walking around Broadfield, I have seen many of the open spaces are overgrown with brambles, waterlogged and children's play areas sadly neglected. It is not surprising I have not seen children using these play areas and for the most part only people walking their dogs, or walking home using these green areas. These areas need to be cleaned up urgently. This will not only improve the overall safety of the area, but also motivate children of all ages to spend more time outside.

Paving in between houses which becomes uneven and broken needs to be repaired and places where mud is being washed onto the paving and where water drainage has become a problem needs to be addressed before serious harm or damage is done. Parking is a constant issue and one that needs constant review and representation in the council to ensure that more parking space is created. Lighting in currently dark areas such as walkways and parking areas need to be identified and adequate lighting installed in order to help stop crime and potential damage to vehicles.

Children and the elderly are and always will be a priority in our lives. Creating a safe environment for them where they can not only feel safe, have a good quality of life, but also have an environment that is conducive to learning and good health social interaction, is not only the responsibility of parents , professionals and social action groups but everyone in the local community.

It is with this in mind that I ask you to vote on the 5th of May in the local elections. By voting for me you will help me, to help you become a resident proud to be living in Broadfield South

Best Wishes

Charles Petts

Conservative Candidate for Broadfield south
